APPENDICES

Appendix 1	League of Oregon Cities – Summary of SDC Law
Appendix 2	League of Oregon Cities – Systems Development Charges Overview & Amendments
Appendix 3	Estimated Land Values in Philomath

Acknowledgements

Streamline Engineering is grateful for the guidance and assistance provided by Randy Kugler, City Manager, and Beau Vencill, Director of Public Works. Without their knowledge of the City's growth trends and needs, a significant amount of additional work would have been required. Consequently, their involvement has significantly reduced the City's costs for this report, while increasing its quality.
