**Philomath Municipal Code:**

**9.15.120 Unnecessary noise.**

No person shall create, assist in creating or permit the continuance of unreasonable noise in the city of Philomath. "Unreasonable noise" is defined as noise which, because of its loudness and frequency, causes serious annoyance or serious alarm to another person, and includes the following specific offenses, which are not exclusive, but are rather illustrative:

- A. The use of an engine, thing or device which is so loaded, out of repair, unmuffled, or operated in such a manner as to create a loud or unnecessary grating, grinding, rattling, exhaust, or other noise.
- B. The use of a mechanical device operated by compressed air, steam or otherwise, unless the noise created thereby is effectively muffled.
- C. The construction, including excavation, demolition, alteration or repair of a building other than between the hours of 7:00 a.m. and 7:00 p.m., except upon special permit granted by the city.
- D. The use or operation of an automatic or electric piano, organ, radio, phonograph, tape player, television, loudspeaker, or sound-amplifying device in an area near residences, private businesses, or buildings open to the public, so loudly as to disturb persons in such residences, private businesses, or buildings open to the public; provided however, that upon application to the city manager, permits in writing may be granted to responsible persons or organizations to broadcast programs of music, news, speeches, advertisements, or general entertainment. [Ord. 582A § 12, 1990.]
